CIS COMPONENT REGISTRATION

Customer is responsible for completing the registration process, as per the Warranty Registration Check Sheet included with the component as the time of sale.

The form shall be completed prior to initial usage and submitted to the email address:
registration@cisinc-usa.com

(If original Warranty Registration Check Sheet is misplaced, or if extra copies are required, please submit request to above listed e-mail address.)

Installer is responsible for the proper installation of components in regard to OEM procedures and recommendations. Supporting documentation, from approved OEM service provider must be submitted at the time of registration, confirming that installation was properly performed, all systems properly checked, and the initial commissioning of the component was successful.

Failure to register the components as per the defined timeline, and/or failure to submit supporting service reports, inspection reports, and or other related documents from OEM approved service personnel at the time of initial installation and commissioning shall void any and all warranties.
